

Additional info regarding XML imports

There are extra rules not written in XSD that need to be addressed.

1) Payment complexType

There needs to be at least one type of payment listed.

`<payment_deposit/>`

`<payment_vmoney/>`

`<payment_bank/>`

`<payment_cash/>`

`<payment_descr/>`

2) Shipment complexType

There needs to be at least one type of shipment listed.

`<shipment_price_mail>`

`<shipment_price_registered>`

`<shipment_price_courier>`

`<ship_courier_smartpost/>`

`<ship_courier_post24/>`

`<ship_courier_dpd/>`

`<ship_courier_pickup/>`

`<ship_courier_agreement/>`

If `<ship_courier_smartpost/>` is given, `<smartpost_size_id>` must also be given.

If `<ship_courier_post24/>` is given, `<post24_size_id>` must also be given.

If `<ship_courier_pickup/>` is given, `<pickup_description>` must also be given.

If `<ship_courier_agreement/>` is given, `<agreement_description>` must also be given.

3) Price complexType

To apply a discount, *<discount_percent>*, *<discount_valid_from>* and *<discount_valid_to>* must be given and valid.

Discounts cannot be applied to items that have been active for less than 30 days.

While discount is applied, *<start_price>* cannot be altered.

If discount is applied, *<discount_percent>* cannot be altered until the current discount has ended or been removed beforehand.
